EXPERIENCE

Agrofeed Integrated Services, Lagos — *Front-end developer*

March 2022 - PRESENT

I am the front-end developer for Agrofeed Nigeria, I created huge awareness for the brand by building simple yet gorgeous UI for their web apps.

1CX (Remote), Ilorin — *Front-end developer*

January 2022 - PRESENT

In charge of front-end development of the client side of all of 1CX's web apps.

EDUCATION

University of Ilorin, Ilorin — *B.engr Electrical Engineering*

November 2018 - PRESENT

A student of University of Ilorin, Electrical Engineering with a current CGPA in the category of second class-upper.

PROJECTS

Agrofeed Nigeria Website — *Simple yet amazing*

I solely built a simple but amazing website for Agrofeed integrated services, as requested, they wanted a really simple website with simple colors and also easy navigation with great UI. I did just that.

Personal portfolio website — *Beauty and simplicity*

My personal portfolio website is simply a work of art, I had the freedom to make a cool layout with just HTML, CSS and Javascript.
